being that Bob rents buses for touring it's not likely that he uses his own plane to start a tour. Although a few years back on public radio while being interviewed about Chronicles Bob claimed he could fly a plane.

the plane:
<http://www.talmorrismusic.com/audiovisual.cfm>

This was Bob Dylan's Gulfstream Jet we borrowed for a couple of days

from NBA Notes, February 2000:
Timberwolves forward Kevin Garnett arranged for a chartered Learjet to fly him and a group of friends and Wolves staffers to and from Oakland for All-Star Weekend. Turned out the plane belongs to Bob Dylan, a native of Hibbing, Minn., who leases it out when he's not touring.

I dont think he rents.....that he would continually get the same bus tour after tour is a bit more then just a coincidence

He owns the bus that he rides on. The other busses (for band and crew) are rented. When a tour is near the end, the number of busses starts dropping.

I love the way Goolge translates!
Bob Dylan is the country

Bob Dylan has come to Maharashtra. Early Tuesday morning landed with his aircraft, equipment and the band in Odense Airport in Beldringe.

Kl. 5.30 landed the plane - a Boeing 757 with a normal maximum take-off 110 tons. It is the largest aircraft ever landed in Odense Airport.

The plane belongs in the United States and will be in the square 1 ½ days.

Bob Dylan comes from Iceland, where he has just held a concert.

Officially, it is secret, who is with the aircraft, and Bob Dylan clouds attention.

-- It is a private, so that we can not tell who the guests are. But it is a fantastic aircraft, says lufthavnschef Erry I. Knudsen

Bob Dylan and the Band plays in the Arena Fyn Wednesday 28. May at. 20:00.
