
Las Vegas ticket question!!!

Posted by Apocalypso Singer - 2008/07/18 02:20

Does anybody have any idea if there are chairs or seats in Vegas? I am asking because I do not get it from the strange seating chart.

When I try to reserve tickets it says GA but also seat-numbers????

Thanks folks.

Seems that most of you out there are also confused by the floor plan :(

Hope someone can help a bit!

According to the seating chart, standing room only in front and rear sections. Reserved chairs in the two middle sections. Unconventional for The Joint but they're probably trying to make extra bucks with the seating packages.

Ah, thanks for that information. So I should try for the standing in front I guess. Wish me luck!
